

v7 轮：几何代价面板（长度、过渡段、已抬升路线）

数据来源: outputs\overnight_3d_ideas\v7\comparison.csv 的 group、strategy、mode、budget、stage_length_delta_mm、final_extra_length_vs_planar_mm、final_transition_count、final_elevated_route_count。stage_length_delta_mm 与 final_extra_length_vs_planar_mm 是两种口径: 前者相对共同起点终态, 后者相对冻结平面基准; 两者都不与近距对数合并成单一评分。
